Comprehensive Audit Report

It's Not an Option!

In Order to Optimize your Website for Search Engines, You Must Do a Comprehensive Audit to Analyze The Status of Your Current Online Presence.

A website's PageRank is determined by a variety of factors. Not sure where to begin? Take advantage of BroadMoar's **Comprehensive Audit Report** special. Talk to a BroadMoar Partner or Advisor about ordering a Comprehensive Audit Report for your business

Once you receive your Comprehensive Audit, your advisor will help you understand the impact the finding has on your business revenue and your success. To run an audit, your business website must be at least one year old.

What The Audit Does:
- We Scan Over 6 Billion Sites
- Creates a Baseline for Your Business Online
- Includes Directory Audit
- Social Media Ranking
- Audits Every Page of Your Website
- Ranking Report and much more….

Depending on your business size and age, a comprehensive audit will take 10-60 pages.

What will the Comprehensive Audit show?
- Website's Organic and Local Search Optimizations
- Existing Directories, including an errors found
- Examine Local Presence Online
- Examine Social Media Presence
- Review Incoming and Out-Going Links
- Reviews and Reputation Management
- How do you Rank Compared to Your Competition
- Examine your Ranking Based on Local Keywords
  and much more...

With the audit results, we will identify optimization opportunities and provide a strategic action plan to improve your local search performance and visibility. Additionally, we offer a clear, prioritized list of actionable recommendations to enhance your online business foundation.

Talk to your BroadMoar Partner or Advisor for more details.
